Koroit Community

Spring Park Campus

Moyne Health Services' highest priority is to ensure the health and safety of our staff and the people who access services at Koroit.

Following the release of an Engineer's report (*Sept 2020*) it was identified that part of the building's roof structure was at risk of failure and had reached the end of its service life.

Acting quickly on this advice, access to the grounds have been restricted to ensure a safe exclusion zone in the event of a roof collapse.

All services are being transitioned to a location situated at 127 Commercial Road as we want to make it as easy as possible for people to access our services within the township.

Moyne Health Services is currently working with the Department of Health surrounding options on the future of the Spring Park Campus and will keep the community updated as information is made available.

Thank you to our community for their patience and support. As an organisation, we are very committed to maintaining current services in the town and also looking at exploring how services can be expanded to meet expected future demand.
